本案設計靈感源自於童話空間的聯想。雲邑設計以擅長的白色美學作為基礎，大膽的在空間中展開了一場黑與白、想像與真實的對話。李中霖設計師談到本案與以往白色空間的差異，相較於過往以白色為主軸，利用燈光烘托白色層次的抒情調性，這次作品加入了強烈的黑色物件，並利用現代與古典、黑色與白色、繁複與簡潔等六大元素相互碰撞，塑造出全案的前衛風格。

全案宛若愛麗絲在奇幻王國所感受的華麗風景，設計師試圖從舞台設計的觀點詮釋一種感官強烈的童話情境。在整體創作上，採用灰色系的地坪作為舞台，以白色勾勒出雕塑感的立體背景，並配以黑色調的設計家具、家飾。空間選用了Moooi Smoke座椅、Piet Boon Hot Kroon吊燈、Marset caup造型立燈，這些黑色的設計物件有著華麗、趣味的童話風格，不僅是裝飾焦點，也是實用的生活道具。在戲劇性的裝置手法下，家具、家飾的造型轉化為強烈的視覺符號，不僅為生活實境與童話奇想建立了連結關係，亦巧妙的扭轉了空間的現實感。

雖然全案公共空間以黑、白、灰等用色作為基底，但是黑與白的角色並不總是對立，在高度穿透的視覺構圖下，設計物件與對比色調有著緊密的對話關係，黑白對比、古典與現代、繁複與簡潔等元素，在不同視角下都能組合成特色風景，令空間有著讀不完的畫面。

設計師使用現代材料塑造出超現實的氛圍，讓空間在童話奇想的外觀下蘊含著精緻細節；例如，長廊地坪使用黑色與白色馬賽克覆蓋，利用重複性的編排手法織造出一種萬花筒般的效果，隱喻了視覺想像與真實空間在本案的模糊性，而那些繁複的圖騰、華麗的織紋其實是以手作製成，揭示了空間精緻講究的一面。全案以空間為舞台，運用誇飾化的物件佈下許多趣味焦點，在建立童話想像與當代空間關係的同時，也刻意模糊了設計家具、家飾與裝置藝術的界線，讓居住空間在滿足實用機能的需求下，也能予人驚喜幽默的觀賞角度。採訪」劉蕙蘋

3. The living space is like a real theater 4. Strong contrasts between black and white posit a unique dialogue among objects and their surroundings 5. Spatial layering penetrates deep into space 6. Extra-large scale objects bring a surreal mood to the space

The project is inspired by fancy spaces in fairy tales. The whole space was built in all white with a direct contrast of black furnishing objects. The surreal combination of color and texture, light and shade clash in the living space as if it only existed in a story or in the territory of an unknown world.

The Alice in Wonderland like fancy space is also a space for furniture collections where Moooi Smoke chairs as well as Piet Boon's Hot Kron and Marset lamps all stand out in dominating positions. The accessories and furniture pieces are magical elements that bridge real daily life and the fantastic life.

Even though the colors used in this residence are largely limited to black and white the colors in between are saturated in a rich layering. It is like a landscape photographed in black-and-white with unlimited views.

Interior materials were carefully selected to deliver an extremely sensible impression for the dwellers. For Example, black-and-white mosaic tiles in the long gallery reveal a view similar to looking into a kaleidoscope. Also the unreal scale of the furniture pieces and art objects all bring the space a dream-world ambience. There is almost no clear distinction between what is a "useful" or "non-useful." The space is tailored to give the most enigmatic pleasure for the people who live there.

建材分析 Material Analysis

從舞台設計的觀點詮釋感官強烈的童話空間風格，採用灰色系的雕刻白大理石地坪作為舞台，以白色勾勒出雕塑感的立體背景，並配以黑色調的設計家具、家飾。利用現代與古典、黑色與白色、繁複與簡潔等六大元素相互碰撞，以比例誇張、趣味化的手法為空間塑造前衛個性。

模糊家具、家飾與裝飾元素的界線，選用設計感強烈的物件，如：Moooi Smoke座椅、Moooi Carpet Model 6 地毯、Piet Boon Hot Kroon吊燈、Xo Mi Ming座椅、Marset Caup 立燈Stube Nrauch Gandur Angel Lamp立燈。

Theatrical design was applied cleverly to this residential space which exhibits an enigmatic wonderment like those in fairy tales. White color material such as Bianco Carrara is set on the main surface of the space while several black color furniture pieces and objects meet the background in humorous ways.

Many designed pieces like the Moooi Smoke chairs, Moooi Carpet Model 6 carpet, Piet Boon Hot Kroon lamp, Xo Mi Ming chairs, Marset Camp lamp, and Stube Nrauch Gandur Angel Lamp all play important roles in playing color games with the pure white.
